Introduction

Verbatim is proud to introduce our ever expanding line of Portable and Desktop Hard Drives, ranging in capacities from 250GBs to 2TBs in a variety of interface combinations. Our stylish portable design provides outstanding performance and capacity with a palm-sized durable case to protect your data during transport to/from home and work. The desktop drive offers additional storage for your home or office PC, transferring files instantly through a variety of interfaces.

Most drives include Nero BackItUP 4 software that allows you to automatically back up your personal content. Nero BackItUP 4 incorporates scheduling, backup sets and encryption of your files with password control. For MAC users, Verbatim's hard drives are fully compatible with the Leopard Time Machine backup feature.

Gigabit NAS

Share files between computers within your network using Verbatim's Gigabit Network Attached Storage (NAS) drive. Easily set up a computer network using the provided auto-configuration protocols, such as DHCP or Apple Bonjour™ to centralise your music, photos, video, and data files. Verbatim's NAS with Ethernet/USB connections is ideal for backing up any PC or MAC on your network. By using a network drive you can create multiple users and user groups. Network users can be assigned privileges and read/write access to data. UPnP Media Server and Print Server features are among the many capabilities of this network drive.

Features

Interface:	One 10/100/1000 Ethernet port (RJ45) for connection to network, Two USB 2.0 host port (A) connection to printer or other device
Data Transfer Rate:	Ethernet 1000Mbit/s (max), USB 2.0: 480 Mbit/s (max)
